July 10-11, 2007--TCU held the first Financial Secretary-Treasurers' Seminar of 2007 near union headquarters in Rockville, Maryland. Attending the two-day training session were 29 officers, most of them newly elected FSTs.

The seminar was conducted by members of International Secretary-Treasurer Danny Biggs' staff to provide comprehensive training in all aspects of local financial officers' responsibilities, from maintaining membership records, handling financial record keeping and preparing government reports.

In addition to learning to handle the complexities of their jobs, the FSTs met with International President Bob Scardelletti who described the status of national freight railroad negotiations. They also heard from International Vice President and TCU National Legislative Director Bob Davis who reviewed legislation activities of the union.
